The Next Generation Series™

The Right Solution

This Series offers a broad array of corner and connector wedges - square, rectangular and radius shapes are available.

Cords flow neatly and safely under the worksurface with wire management cord trays.

The workplace must be versatile and flexible in today's dynamic work environment. The Next Generation Series offers free-standing modular furniture that meets those needs and allows accessibility for team interaction with design features that are sensitive to your budget.

The Next Generation Series provides design solutions that are simple to configure, simple to install and easy to maintain.

Accessories

Center drawer is constructed with contoured sides for safety.

The suspended box-file pedestal is central locking and utilizes ball bearing slides on file drawer.

Standard grommets allow cords to flow side-to-side and back-to-back between workstations.

Fully articulating arm with built-on wrist rest allows proper ergonomic keyboard placement.

The Next Generation Series combines commercial grade materials with outstanding features.

Mobile pedestals in file-file, box-file, and box-box-file configurations. Drawers feature full extension, ball bearing slides.
